POWERING TRANSACTIONS AND INTERACTIONS

Issued August 2022

We would like to make customers aware of the planned obsolescence of the following ITL products as of Dec 2022. Replacement products are already available.

PRODUCT NAME	FIRMWARE ID	DATASET LABEL	SOFTWARE SUPPORT
BV20 RANGE	BV0020	XXX01J	Dec 2025
SMART HOPPER 3	SH0003	XXX01M	Dec 2025

Issued July 2020

We would like to make customers aware of the planned obsolescence of the following ITL products as of June 2021. No new currency or firmware updates will be available after this time, repairs and spare parts availability will also cease.

PRODUCT NAME	LABEL IDENTIFIER	DATASET CODE	MANUFACTURE DATE
NV9USB+	Blue	XXX01E	Before 2016
NV10USB	Red	XXX011	Before 2016
BV50	Red	XXX012	Before 2016
NV200	BR29 & below	XXX016	Before 2017
Smart Payout	BR35 & below	XXX016	Before 2017
SMART HOPPER	BR29 & below	XXX010	Before 2017

Issued September 2019

NV9USB (green label) Obsolescence.

ITL has now ceased support of the NV9USB green label, this includes currency datasets/firmware and spares. All units in the field will now be over 5 years old. As such ITL has ceased support of the NV9USB green label as of 1st September 2019.

PRODUCT NAME	LABEL IDENTIFIER	DATASET CODE	MANUFACTURE DATE
NV9USB	Green	XXX01B	Before 2014

Issued January 2019

BV100 Obsolescence

ITL will cease production of the BV100 bill validator on the 31st December 2019.

PRODUCT NAME	LABEL IDENTIFIER	DATASET CODE	MANUFACTURE DATE
BV100	All	XXX015	Before 2019

Issued January 2014

NV9 / NV10 built between June 2005 and December 2009.

The original NV9 and NV10 units were first produced in June 2005 and replaced by the NV9 USB and NV10 USB in December 2009. Both of these original products will be made obsolete on the 31st December 2014 meaning we will no longer be able to repair or supply parts for these units from the end of the year.

PRODUCT NAME	LABEL IDENTIFIER	DATASET CODE	MANUFACTURE DATE
NV9	All original	XXX019	Before 2009
NV10	All original	XXX011	Before 2009

Issued April 2011

NV7 & NV8 obsolete notification.

From 1st January 2012 both the NV7 and NV8 bank note validators become obsolete.

NV7 & NV8 units will not be accepted for repairs from this date.

PRODUCT NAME DATE	LABEL IDENTIFIER	DATASET CODE	MANUFACTURE
NV7	All		Before 2007
NV8	All		Before 2007

Issued June 2009

INV4 obsolete notification.

From 1st December 2009 the NV4 bank note validator will be obsolete. Spare parts will no longer be stocked so we cannot guarantee NV4 spares or repairs.

PRODUCT NAME DATE	LABEL IDENTIFIER	DATASET CODE	MANUFACTURE
NV4	All		Before 2004
